Platinum Level:

This level combines the Home Whitening System with an in-office activated system. The in-office system boosts the whitening process with an applied whitener to allow the teeth to start changing color before using the Home Whitening System. It requires 3 in-office appointments and also produces excellent results.

This combined system normally cost \$800 but for a limited time we are offering it for **\$700**.

Gold Level:

This level is a **Home Whitening System**. Through accurate impressions and models of your teeth, our lab fabricates precise trays to apply whitening gel. The gel dispensed lasts 8 to 10 nights but excellent results are usually seen in 3 or 4 nights. The results are excellent and reliable. It requires two 15-minute in-office appointments.

Our kits normally cost \$400 but for a limited time we are offering them for **\$375** for both upper and lower teeth.

Silver Level:

This level consists of **Tres White System**. They are applied at home at your discretion. They are dispensed in a bulk package that lasts about 2 months and produces fairly good economical results. For best results, try this immediately after your cleaning. The cost is **\$100**.

We will be happy to answer any questions you may have and

start you on YOUR ROAD TO WHITE
